SUMMARY

Senior frontend developer in Istanbul. Communication design at Yıldız Technical University; production software at Intime Info since 2022. I lead the Vue 3 frontend for Intime IK, an enterprise HR platform covering attendance, payroll, CRM, helpdesk, and related modules. I also ship personal full-stack products with React Native, NestJS, and PostgreSQL.

EXPERIENCE

Frontend Team Lead

Jun 2024 – Present

Intime Info Yazılım Çözümleri A.Ş. · Ataşehir, Istanbul, Turkey (Hybrid)

- Lead the Vue 3 + TypeScript frontend for Intime IK: PDKS, payroll, CRM, helpdesk, agreements, performance, and related modules.
- Own the shared UI architecture — tables, theming, auth, and the REST client — so new modules ship on the same rails.
- Run code reviews and keep TypeScript, Element Plus, and responsive layout standards in production.
- Work with product (Figma) and backend so screens ship as maintainable slices.

Frontend Developer

Jul 2022 – Jun 2024

Intime Info Yazılım Çözümleri A.Ş. · Üsküdar, Istanbul, Turkey

- Built production Vue screens for Intime IK — lists, forms, calendars, dashboards — from Figma.
- Wired REST APIs, client state, and role-based views used daily by HR teams.
- Tightened performance and layout on dense data tables.

SKILLS
